Bringing light to life

OSRAM LEDDriving® Driving and Working Lights

OSRAM's LEDDriving® driving* and working** lights offer powerful far and near field illumination with impressive LED lighting technology; combining high optic efficiency with even light distribution and a glare-reducing reflector design. Available in a variety of performances, shapes and beam patterns, these robust and compact lights will lead the way on any journey!

To place your order contact your local branch today. See back page for details.

Light is OSRAM

*Driving lights are ECE compliant and permitted for use on public roads. **Working lights do not have ECE approval and must not be used on public roads. For more information go to: www.osram.co.uk/ledriving-lights. All prices are trade exd. VAT.

NEW EBS7 COMPONENTS FOR SCANIA

In addition to Knorr-Bremse supplying EBS7 Electronic Braking Systems original equipment to Scania Truck applications, a range of serviceable parts for the EBS7 System are now available for the independent aftermarket.

Knorr-Bremse TruckServices is constantly working to improve its product portfolio and service concepts in line with customer and market requirements to optimise

coverage of the various vehicle applications and regional differences. The EBS7 system for Scania applications was first introduced to the OE in 2015 and has been sold more than 195,000 times since.

Still confused? Knorr-Bremse Technical Helpline in Bristol is a available to assist on 0117 9846 222

Tables to be used as a guide only – if unsure of the application, please contact your local supplier.

The above tables cover a selection of the range available, contact your local supplier for details of the full range of AD commercial lubricants.

*AD branded commercial lubricants can be used without invalidating the manufacturer’s warranty, providing the lubricant specification required by the vehicle manufacturer is detailed on the product label or Technical Data Sheet.

Protect your investment
AD Lubricants surpass the ever-evolving demands of the world’s leading engine & driveline manufacturers.
Cutting-edge research & stringent product testing guarantee it.

ZF Aftermarket for Commercial Vehicles

World's market leader in commercial vehicle drivetrain, chassis, steering, suspension and braking products.

Clutch removal/installation

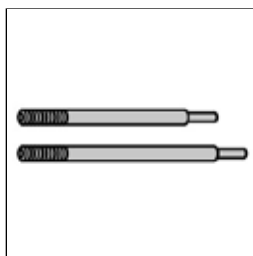

Required special tools

Centring mandrel
OE (99 204)

Centering mandrel
adapter
OE (99 205)

Guide pin(s)
OE (98 747)

4200 080 562
Clutch alignment tools
FROM ONLY £533.89

Remove

Remove gearbox.

Unscrew opposing bolts. (1)

Screw in guide pin(s). (2)

Complete special tool(s). (3)

Fix clutch drive plate using centering tool.

Required special tools

Guide pin(s) (2) OE (98 747)

Centring mandrel OE (99 204)

Centering mandrel adapter OE (99 205)

(see figure 1)

Unscrew remaining pressure plate screws.

Remove clutch pressure plate. (1)

Degrease clutch drive plate. (2)

(see figure 2)

Install

Installation is carried out in reverse order of removal.

Gradually tighten clutch pressure plate screw(s) cross-wise. (see figure 3)

Lubricate hub splines of clutch disk and gearshaft lightly with molybdenum grease, wipe off excess grease.

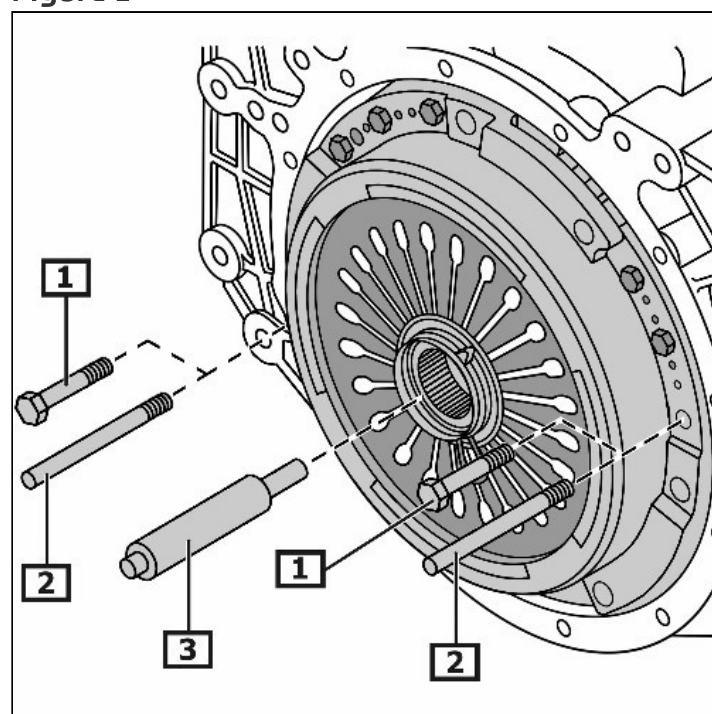

Install gearbox.

Figure 3. Clutch Cover

Always tighten new bolts alternating crosswise to avoid distorting cover during installation

WINNARD

150 YEARS OF ENGINEERING EXPERIENCE

DOES YOUR BRAKE DRUM SUPPLIER CHECK THE QUALITY OF THE PARTS THEY SUPPLY YOU?

WINNARD has been manufacturing brake drums for over 90 years. We have the knowledge, experience, quality control procedures and engineering technology to ensure our parts meet the quality standards required for such safety-critical components.

You cannot judge product conformity by appearances alone. The correct dimensional characteristics are critical to ensure safe operation. You can count on WINNARD to supply you safe effective braking products.

Look for the WINNARD name on your braking products

Failed aftermarket Scania drum ref; DVSA investigation Jan 20

GREAT DEALS ON THESE POPULAR SCANIA PARTS

All our Brake Discs are manufactured to our specification by ISO TS16949 accredited factories with many references having ECE R90 approval. During the design process we also make enhancements over the Original Equipment part. These enhancements include improvements to the disc's thermal fatigue capabilities as well as reductions in corrosion of critical areas such as ABS teeth.

BRAKING NEWS

With growing demand for the tried and tested Intradrum from our SAF Fleet customers and SAF parts distributors, we've put together a genuine SAF axle Brake shoe reline kit to make relines as simple and efficient as possible. Our SAF reline kit is a direct OE replacement and ensures maximum efficiency and safety from SAF OE original parts. Retaining that class-leading braking performance that is required in the modern transport industry.

3.434.3653.00 Brake Shoe Kit Part number,
for the S9-4218 Axle which has 420 x 180 brake shoes.
Known as SJ28/29 shoes.

This kit comprises of the following:

4 x lined shoes (including rollers): 3055012000 - no surcharge, fully reline-able metalwork.
2 x Return springs: 1447005801 2 x Spring clamps: 1151000800

3.434.3655.00 Brake Shoe Kit Part number,
for our low-loader axles Z9 / Z11 range that take the 300 x 200 brake shoes. Known as SJ22/23 Shoes

This kit comprises of the following:

4 x lined shoes (including rollers): 3055012901 - no surcharge, fully reline-able metalwork.
2 x Return springs: 144700600 2 x Spring clamps: 1151001300

3.434.3617.00 Brake Shoe Kit Part number,
for the S9-3718 Axle which has 367 x 180 brake shoes.
Known as SJ32/33 shoes.

This kit comprises of the following:

4 x lined shoes (including rollers): 3055012600 - no surcharge, fully reline-able metalwork.
2 x Return springs: 1447005801 2 x Spring clamps: 1151000800

MORE BRAKING NEWS

Leading on from the introduction of the new SAF Caliper for the 22.5" disc brake. The **SBS2220H01** now replaces the **SBS2220H0**. The advantages are, optimized cast parts, weight reduction (approx. 5kg per axle) and the optimised brake pad retaining bracket.

The new part number for **SBS2220H01** brake pads is 03 057 001500, this comes complete with the new retaining bracket.

Part numbers for replacement calipers are as follows:

Left hand 03080009700

Right Hand 03080009800

SAF PADS THAT WON'T "BRAKE THE BANK"

Offering OE quality at an aftermarket price, we now offer 01 versions of the 3 most popular pads. **3057009601, 3057008501, 3057007701**

Are all now available with the peace of mind and guarantee you get from specifying OE without the cost.

Check availability and purchase at your preferred local SAF-Holland stockist.

If you have any technical questions, please contact the IMS Group directly and we will endeavour to assist you.

THE EASY WAY TO SANITISE VEHICLES

RAEK3S

AutoExpel Misting Sanitiser Kit

Have peace of mind and eliminate germs, viruses and bacteria from the vehicle. Due to its unique formula Ring Auto Expel sanitises the entire vehicle cabin, including the air-conditioning system.

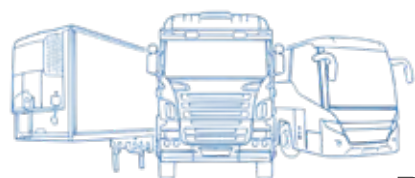

- **Biocidal formula proven to be effective against Enveloped Viruses**
Including Coronavirus and MRSA, as defined in EN 14476:2013 + A2:2019 ANNEX A*.
- **Suitable for use on all surfaces**
Including leather and cloths
- **Dry mist system**
The mist machine heats up the sanitising liquid and produces a fine dry mist. No wet residue is left on the surfaces
- **Easy to use**
Vehicle will be free from bacteria and viruses within 30 minutes. Run the mist machine for up to 5 minutes and allow the dry mist to settle for 25 minutes
- **Can sanitise the vehicles air-conditioning system**
Simply switch on the recycle air to pass the mist through the air-conditioning system for a completely sanitised vehicle cabin
- **Eliminates all foul odours**
- **Leaves a fresh scent in the vehicle**
- **ROHS approved mist machine**
